CSS Tech

Where innovation meets dedication

About Company

CSS Tech is a dynamic IT services company based in Roodepoort, South Africa, founded by experienced IT professionals Nico Scheepers and Clint Solomon. With a combined expertise spanning over 30 years in IT infrastructure and support, we specialize in providing practical, hassle-free IT solutions to small and medium-sized businesses across South Africa.

We proudly form part of the Procuresy Engineering Services Network, enabling us to deliver skilled IT resources on-demand – whether you need ongoing support, project-based assistance, or expert consultation.

Our mission is simple: We take care of your technology so you can focus on running your business. From the everyday frustrations like a printer that won't print, to strategic moves like migrating your entire operation to the cloud – we handle it all with clear communication and no jargon.

Why Choose CSS Tech ?

- **Local & Responsive:** Based in Roodepoort, we offer both on-site visits and fast remote support anywhere in South Africa.
- **Plain English Service:** We explain everything in simple terms – no confusing tech-speak unless you want it.
- **Proven Track Record:** Our founders have managed IT for major companies including Mondi, Momentum Health, Global Forest Products, Dawn Ltd, and Lixil Africa (a Japanese multinational).
- **Flexible & Affordable:** Pay only for what you need – hourly support, monthly retainers, or fixed-price projects.
- **One-Stop IT Partner:** From fixing a single computer to designing your entire IT setup, we've got you covered.

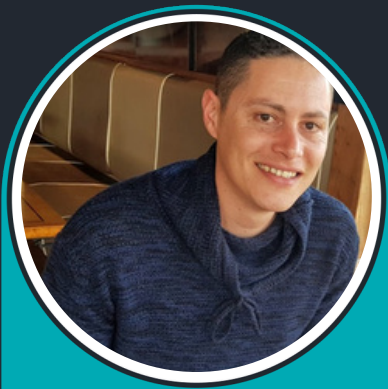

Our Services

In Simple Terms

We make IT work for your business, not against it. Here's what we can do for you:

Everyday IT Support	Bigger Picture Solutions	Strategic IT Services
Fixing printers, computers, Wi-Fi issues	Setting up new offices or moving locations	Migrating to cloud systems (Microsoft 365, Google Workspace, Azure)
Installing software & training staff	Installing software & training staff	Full IT infrastructure setup (servers, backups, security)
Virus removal & computer cleanup	Email setup & management (Outlook, hosted solutions)	VoIP phone systems & cellular integrations
Remote helpdesk for quick fixes	Backup & disaster recovery planning	IT budgeting, vendor management & SLA negotiations
Laptop/desktop setup & repairs	Cybersecurity basics (firewalls, antivirus, user training)	Ongoing managed IT services (monthly support packages)

Meet The Team

Clint Solomon

Clint Solomon complements the team with outstanding operational and client-facing expertise. He oversees all administrative functions – from accurate billing and efficient scheduling and resource coordination – ensuring every project runs smoothly and deadlines are met without hassle. Equally comfortable at the coalface, Clint delivers responsive day-to-day End-User Computing (EUC) support and serves as the primary point of contact for our clients. His calm, solution-oriented approach and genuine commitment to customer satisfaction mean clients always feel heard, valued, and well looked after, allowing us to build lasting partnerships based on trust and reliability.

Sydney Govender
